CHICAGO PRODUCE MARKET.

CHICAGO, August 3 .- [Special Telegram to the BEE. |- Corn was excited and higher on the curb yesterday afternoon, but the opening this morning was 4@%c under yesterday's closing range on reports of rain in Kansas and Nebraska. Commission merchants were the first to hear of the rain from their country customers, but the general crowd "caught on" presently and the result was a combined attack on the market. No rains were heard of anywhere else over the corn district except Kansas and Nebraska, but showers in these states furnished the longs an excuse for unloading their holdings and the bears for raiding the market. Prime telegraphs from Dwight that "the general situation from Ohio to Kansas on corn was never worse than at the present moment." Hundreds of dispatches and letters from every quarter of the "burnt" area were received testifying to the same state of things. Nevertheless the market was ripe for a reaction from the range attained on the bulge. The transactions for the day footed up an enormous aggregate and an average shrinking of 1%@1%c as compared with yesterday. That the market did not break all to pieces under the pressure of the offerings is proof that the general public is under it with both shoulders. Packers, too, were notable strong and firm friends of corn. It is commonly believed that as a class the packers keep very well posted on the condition of the corn crop. Trading in September began at 41%c. The filling of numberless small orders firmed the market at the outset and 41%c was obtained. Then the market yielded, not being arrested until 40% c was reached. During the last two hours of the session September ranged 40 1/100 41%c, the market hardening perceptibly all the while until just before the close, when it was raided down at 40%c on dispatches anmouncing that rains had progressed as far eastward as Kansas City. October started in at 42%c, sold up to 42%c and off 41%c, advancing to 42%c and closing at 41%c. November opened at 43c, sold up to 43%c, off to 41%c, closing at 42%. There was a very large trade in May, which opened at 45%c, advanced to 45%c646c, broke off to 44%c, turning and advancing to 45%c. There was a rattling trade between 45c and 45%c, and rattling trade between 45c and 454c, and heavy buying by parties was the feature of the day. Toward the end of the session May eased off with the rest of the market and closed at 44%c.
Wheat was active early. The tendency of values was downward and prices closed %@

Yalles was downward and prices closed %60 %c lower than yesterday, and very near the inside figures of the present year and keneration. The starting trades in September were at 70%c. The market slid down 36c more in sympathy with corn, September touching 60%c, October in the meantime going from 72%c and December from ring from 72%c, October in the meantime go-ing from 72%c to 71%c, and December from 75%c to 74%c, trade in the last named option being light. Values worked nearly back to the opening range and the tone of the mar-ket was firm, but it wilted during the last fifteen minutes of the session, the closing prices being nearly at the inside of the day, at 74%c for December. at 7434c for December.

at 74%c for December.

Speculation in oats was only moderately active and there was a slight reaction from yesterday's bulge under less urgent demands from the shorts and in sympathy with the decline in corn. The market opened pretty firm, but the closing figures were at the bottom for all futures this side of May, there being a decline in September and October of %c. The final closings for August and May were ½ @%c off.

Provisions were unfavorably affected by the reaction in corn. Next winter's deliv-

the reaction in corn. Next winter's deliveries, which are beginning to receive consideries, which are beginning to receive considerable attention, were again stronger, but in near futures, months embraced in the summer backing season, the feeling was easier. For August, the decline suffered in short ribs was 12½c, for September, 15c, and for October, 17½c. Lard was relatively stronger than short ribs, though October closed a trifle easier, with September unchanged and August only 2½c higher. The year and January pork showed an advance at the close of 10@15c, and January lard and short ribs of 5c. September, the pivotal month, sold at \$6.70;66.77½ for lard, and \$8.00@8.17½ for short ribs, closing at \$6.72½ @6.75 and \$8.00 respectively. August lard ranged 10@12½c under and October 7½c@10c over September. October short ribs sold at September prices, while August was quoted 5@7½c under September. The year pork closed at \$12.25. January pork at \$12.75. November lard at \$6.67½. January lard at \$6.80, and January short ribs at \$6.45.

CHICAGO LIVE STOCK.

CHICAGO, August 3 .- | Special Telegram to the BEE j-CATTLE-Prime native steers were scarce and selling about the same as yesterday. All other descriptions of natives were lower, but just what the decline was would be difficult to get at on account of the irregular range of prices. Anything showing grassy appearance was difficult to sell at any price. About \$4.00@4,50 bought the best cattle in the yards outside of a lot of show steers, for which \$4.75 was bid and refused. steers, for which \$4.75 was bid and refused. The great bulk of so-called fat cattle, good enough for shipment alive or dressed, sold between \$3.75 and \$3.87%, and from that down to \$3.25 for rough and common. Large lots of well bred stock, but thin, sold to go back into the country within a range of \$2.60 (@3.25). The stocker and feeder trade remains unchanged. Shipping steers, 1350 to 1500 lbs, \$4.10(@4.75; 1200 to 1350 lbs, \$3.70(@4.25; 950 to 1200 lbs, \$3.20(@5.80; stockers and feeders, \$1.50(@2.10; cows, bulls and mixed, \$2.75; Texas cows, \$1.65(@2.35; steers, \$2.40 (@3.35)

Hogs—Trade was only moderately active. Local buying was limited to the wants of the two ble packing firms and the shipping was two big packing firms and the shipping was light. Prime heavy sorts ruled steady, but all others sold a shade lower. Indiana and Michigan grassers showed up in large numbers to-day and sold at any price that could be obtained. As compared with corn fed of the same average grassers sell at 35@40c discount. The best corn fed heavy, \$5.40@5.50, and 5.20@5.35 for mixed; light sorts, \$5.35@5.40.

FINANCIAL

NEW YORK, August 3 .- | Special Telegram to the BEE. |-STOCKS.-The feeling in stock circles still remains feverish, but the market exhibited more stability and opened irregular, but on a majority of stocks at slightly higher prices. The large shorts bought moderately. Deacon White and Enos & Co. took Western Union and lifted it 184 per cent. London was a good buyer and there appeared to be more orders from conservative buyers in the market, but there was nothing in the situation to warrant any radical change but the desire of the shorts to cover. The absence of any ruling and sensational rumors had a beneficial effect, and during the morning the whole list improved from 16 to 2)6 per cent, Lackawanna and Reading having the lead. The Gould stocks, although regarded suspiciously joined in the upward movement, and Missouri Pacific advanced 114 but lost the advance. Despite the reduction in earnings for July of \$199,000, it dvanced 1%, but reacted 3. Northwestern was supported by the Vanderbilt people and gained 13. The rest of the list followed irregularly, except Louisville & Nashville, which was the weakest property owing to selling by London, and ranged lower than yesterday. The last hour the market developed surprising strength. The shorts con-Wednesday, Aug 3.

Cattle.

The receipts of cattle were lighter than yesterday by 200 head. The market was a little slow but was strong on good native corn fed steers. One bunch of very fine steers brought \$4.05, the top for some time.

Mail 14, Reading 13/c, Louisville & Nashville \$6.

Although the volume of business what little there was mostly sold. There

was lighter, a more satisfactory feeling prevailed and the general opinion was that the worst had been seen. There is still, however, a suspicion that unless the United States treasurer takes some action to decrease the absorption of money by the treasury, a stringent money market will be witnessed in the near future, and bear a dull movement. Business with Chicago houses was only fair. The sales were 64, 100 shares.

Hogs.

The run of hogs a little heavier than yesterday. The quality of the hogs was not as good as vesterday and there were a good many very common hogs in. The market was about 5c lower to open but was rather uneven. The buyers held back not wanting the hogs at the prices. The salesmen were also slow to accept the decline and a good many loads were held until afternoon. The market closed with ten loads left unsold and at a decline of about 10c from yesterday's market. However one very good load of heavy hogs sold late at \$5.25, showing that the decline was heavier on light and mixed than on good heavy.
